APPENDIX I – PLEDGING TO UPHOLD THE PRINCIPLES

THE CORPORATE INTEGRITY PLEDGE – THE PRINCIPLES IN ACTION

The Principles are more than a statement of mere intent; by signing the Corporate Integrity Pledge to uphold the Principles, companies are voluntarily taking the first step in a longer-term programme to create an effective system to increase integrity in the Malaysian corporate sector through practicing good governance, including anti-corruption measures.

The longer-term programme is intended to see companies gradually moving toward self-assessment, identifying gaps and action plans to close them and eventually reporting on anti-corruption measures, in line with the UN Reporting Guidance on the 10th Principle under the Global Compact. A brief outline of the roadmap towards this is set out below:

IMPACT OF SIGNING THE CORPORATE INTEGRITY PLEDGE

Companies can signal their commitment to:

- a high standard of governance, transparency and accountability; and
- contributing toward of improving the business environment in Malaysia,

to their investors and other stakeholders, by pledging to uphold the Principles in their business operations, using the attached format of the Malaysian Corporate Integrity Pledge.

It is important to note that this pledge is a tool to be used by companies themselves, on a voluntary basis, to improve the quality of their governance mechanisms and the level of integrity of their business operations; it is in the long run to be given force through self-reporting by the company, to meet the demands of its stakeholders. The signing of the pledge by a company and the inclusion of any company's name in a list of signatories does not in any way imply any certification, review or assessment has been conducted by Malaysian Institute of Integrity or any of the regulatory authorities or other parties collaborating on this tool to vouch for the integrity of the signatory.
